16 CE Units

Course Description

The course has been carefully designed to integrate didactic, audio and visual aids, and extensive **hands-on** attendee participation with a wide range of exodontia procedures for each doctor.

Didactic

- Safe patient selection
- Oral sedation protocol
- Red flags
- Antibiotic coverage
- Atraumatic extractions
 - Teeth broken below the gingiva*
 - Multiple extractions*
 - Teeth adjacent to delicate esthetic restorations*
 - Teeth with immediate implant placement*
- Socket grafting
- A review of angiogenesis
- Surgical implant surgery introduction
- Suturing 101: Interrupted, Continuous, Horizontal & Vertical Mattress:
 - Where – When – How
- Case presentation and fees
- Appropriate legal documentation

Hands-on

All participants will have the opportunity to perform extractions on multiple patients. All patients will be carefully screened by Dr. Rasner, and only ASA Class 1 & 2 patients will be treated. Cases will be assigned to specifically challenge the doctors with varying degrees of difficulty. Doctors will work in spacious operatories in groups of two per patient. The doctors will rotate as care provider with each subsequent patient. All patients will be fully monitored with a pulse oximeter while treated.

During the Hands-On Clinic, each doctor will:

- Determine and utilize appropriate flap design
- Remove teeth in various clinical scenarios, such as teeth broken to the gingiva; teeth adjacent to "delicate" teeth (e.g. anterior crowns); teeth in lingual version; and teeth in crowded dentition
- Select and demonstrate proficient use of appropriate armamentarium (elevators, Physics Forceps vs. conventional) to remove sectioned teeth
- Determine and demonstrate case-appropriate suturing technique

Questions and answers

Following the surgical sessions, all attendees will participate by sharing the challenges they faced and having an open opportunity to clarify any of the procedures demonstrated.

At the table

All attendees are invited to dinner with Dr. Rasner on Friday at a local restaurant. Up for discussion will be anything from practice management and growth tips to clinical gems to improve your productivity.

About the instructor

Dr. Steven L. Rasner earned his DMD at the University of Pennsylvania. He has pursued extensive CE, trained with many renowned implant surgeons, and went on to earn a Mastership in the Academy of General Dentistry (1997). Of the 4500 hours Dr. Rasner has achieved, close to 1,000 have been dedicated to oral surgical sciences. He has completed both the Misch International Implant Institute curriculum and the Pikos Institute continuum. Dr. Rasner has taught for eighteen years in 40 American states and 5 countries. He has taught his courses, *Atraumatic*

Extractions for the GP and *The Bulletproof Guide to Implant Success*, for several ADA components as well as multiple times at the national ADA Meeting. He has received numerous speaking awards and was recognized in *Dentistry Today's* Top Clinical Educators list for the last ten years. Dr. Rasner received a lifetime achievement award in 2011 from *Excellence in Dentistry*. He has authored 3 books and over 50 industry and journal publications.
